

Camcode Can Help Automate Your Asset Management System For Organization-Wide Benefits

Camcode can accurately populate and verify your database, manufacture labels and install them for your asset tracking project.

Camcode is your one stop source for durable CMMS (Computerized Maintenance Management System) labels that we design, manufacture, deliver, install unique QR coded labels, and populate your database for your organization's assets.

This provides our clients with a 100% accurate database and very fast QR code scanning to track your asset's critical data points. Ultimately, clients improve decision making on purchase, management, maintenance, and disposal of equipment – dramatically improving their spend and quality of service.

Features of Camcode's Label Services

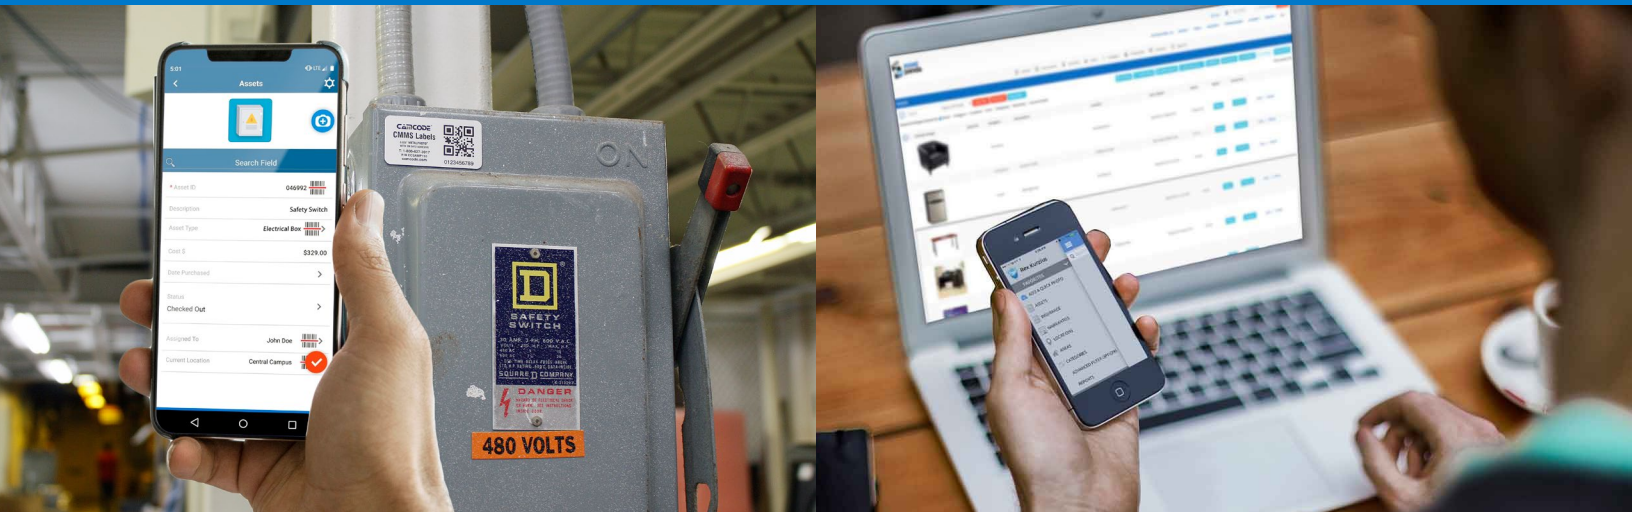

- **Camcode designs and manufactures your QR code labels**
We have ultimate control over the creation process, unlike a reseller.
- **True-Up Existing Data**
Provide data collection, verification, and post-processing services.
- **Software Agnostic**
Integrates easily with maintenance software platforms.
- **Custom Engineered Labels**
Consultation to create the optimal durable labels for your project.
- **Time Management**
Increase staff efficiency and eliminate human error.

Benefits of Camcode's Label Services

- Give each piece of equipment a unique QR coded identifier for easy identification.
- Create a digital linkage between tagged equipment to the CMMS asset registry, work order tracking, and tactical capital expenditures for more predictable and accurate PM budgeting.
- Understand the condition of equipment at each location.
- Increase accuracy of your database.
- Save man-hours and money by increasing maintenance staff efficiency.
- Maintenance staff satisfaction via easier workflow.

Camcode Can Help Automate Your Asset Management System For Organization-Wide Benefits
